

Field Technician

Lizotte Machine Vision - Rivière-Verte, NB

Lizotte Machine Vision is seeking a motivated, autonomous, and versatile individual to fill a permanent full-time Field Technician position. The selected candidate will be responsible for technical service, programming support, user training, preventive maintenance, and the installation of food inspection and classification systems. The position requires frequent travel, representing a minimum of 50% of the time, for installations, service visits, and troubleshooting interventions. All travel-related expenses are fully covered by Lizotte Machine Vision, including airfare, mileage or car rental, accommodation, and meals.

JOB DESCRIPTION :

- Install and commission our systems according to the established installation schedule.
- Provide operational and maintenance training on our systems to operators.
- Respond to service calls, diagnose issues, and resolve customer technical problems.
- Perform service visits and produce detailed reports, including preventive maintenance activities.
- Travel to customer facilities for installations, service visits, and troubleshooting.
- Perform any other related tasks as requested by management.

REQUIREMENTS :

- College or university training in a field related to automation, electromechanics, mechatronics, or industrial maintenance.
- More than 3 years of experience.
- Willingness to travel up to 80% of the time within Canada and internationally.
- Bilingual in French and English.
- Experience in food-industry automation or PLC programming is an asset.
- Must hold a valid passport and a valid driver's license.

WORKING CONDITIONS :

- 40 hours per week or more, excluding travel time.
- Competitive salary based on experience.
- Group insurance and a group RRSP plan available.

Interested candidates are invited to send their information to the email address listed below as soon as possible.
